Work Experiences

Solution Architect (UI & UX)

NEURA Robotics, Metzingen, Germany
Oct 2024 - Now

NEURA builds cognitive robots. I lead the design of user interfaces and experiences across robotics products.

Product Director

KONA SL, Dhaka, Bangladesh
Feb 2024 - Sep 2024

KONA is a fintech company specializing in smart card solutions. I directed product planning and oversaw user-focused strategies.

Head of Brand and Communication

Chaldal (YC S15), Dhaka, Bangladesh
Jan 2021 - Jan 2024

Chaldal is the largest online grocery platform in Bangladesh. Led all brand and communication strategies.

Chief Product Officer

Maya Digital Health, Dhaka, Bangladesh
Dec 2019 - Dec 2020

Led the product development process, including launching the iOS app and redesigning the company's main website.

Head of Product Design

Deligram, Dhaka, Bangladesh
Jul 2019 - Nov 2019

Introduced a mobile-first approach and crafted seamless experiences for both web and app users.

Co-Founder and CEO

G&R, Dhaka, Bangladesh
May 2010 - Jun 2019

Founded the country's first digital ad network and led a team of 50+ members.

Our work was recognized by Google at I/O 2014 ↓

Projects

Neuraverse

NEURA Robotics, 2025

A virtual platform to build, program, and simulate robots. As UX Lead, I designed user flows and interfaces in collaboration with internal and external teams.

G&R Ad Network

G&R, 2009

As a designer co-founder, I shaped the brand identity and led the design of complex product interfaces.

A Series of Video commercials

Chaldal, 2021

Produced 5 video commercials in collaboration with a top director and leading celebrities to support Chaldal's nationwide expansion.

Custom Bangla Font Design

Asiatic Talking Point, 2010

Designed and developed a custom Bangla font as part of Robi's rebranding. The font served as their core brand identity for over a decade.

Lekkhok, the Bangla Keyboard

Color Talking, 2014

Designed a new Bangla key layout and developed Android and iOS apps to enhance Bangla typing experience. A personal favorite among my "failure projects" for its ambition and learning value.
